Therapeutic Riding Changes Lives

For people with disabilities and those at risk, the horse and its environment can provide unique healing and learning experiences. Under the watchful eye of a certified instructor, trained volunteers, consulting educators and healthcare professionals, a student’s interaction with a horse can be therapeutic, fun, and freeing.

BRCTH offers ten-week spring and fall therapeutic riding sessions, plus week-long summer day camps. Instruction includes grooming, handling and mounted activities. BRCTH also offers Equine Facilitated Learning (EFL) which emphasizes psycho-social learning through observation of and interaction with horses in ground activities.

We serve children, from age 4, and adults. Students may be individually referred or participate as part of a school, therapy or group home program. Year-round access to an indoor arena allows for the development of new programs to serve additional populations.

Competition opportunities exist for students, including the annual Therapeutic Riding Association of Virginia Horse Show held each fall in Lexington. BRCTH students have excelled at this family-oriented, fun event.

Therapeutic Riding Produces Results

Physical
- Improved coordination and muscle tone
- Improved posture and balance
- Improved gross and fine motor skills
- Increased strength and range of motion

Cognitive
- Improved attention and concentration
- Improved sequencing and planning
- Improved flexibility in thinking
- Improved judgment

Psycho-social
- Increased self-confidence and self-control
- Increased understanding of consequences
- Improved social interactions and work habits
- Increased empathy and empowerment

Plus…It’s Fun!
You will make new friends—human and equine!

Volunteer Opportunities

To continue developing and expanding our services, BRCTH needs the support of the communities that it serves. We are seeking interested persons to help with:
- Locating suitable horses and ponies
- Fundraising and administrative activities
- Promoting therapeutic riding in the communities where we live.

BRCTH is seeking volunteers to be horse leaders and side walkers for the lesson programs, as well as instructors-in-training for the mentoring program leading to PATH (Professional Association of Therapeutic Horsemanship) certification.

BRCTH operations are based at Almeda Farm, which features airy, well-lit work spaces, large indoor and outdoor arenas, a round pen and extensive trails.
Help BRCTH make a difference and change lives in OUR communities.
